## WHAT

- The Rounds 4 Research program was designed to address a critical shortage in turfgrass research funding by auctioning donated rounds of golf online.
- The program is administered by the Environmental Institute for Golf, the philanthropic organization of the Golf Course Superintendents Association of America.
- Rounds 4 Research allows GCSAA chapters and turfgrass foundations to participate as fundraising partners with the vast majority of proceeds going back to those organizations. In this way, these organizations can direct the proceeds to specific projects that will have the most significant impact in their local areas.

## WHY

**Helping your chapter is as simple as donating a round of golf...**

- Golfers and golf facilities are the ultimate beneficiaries from the investment of these funds.

**Your donation will support the Florida GCSA and its current and future research projects. Current projects include:**

- Seasonal dynamics of warm-season turfgrass rooting
- Maintenance requirements and performance of new bermudagrass cultivars for fairway use
- Instrument funding - nitrogen analysis by combustion
- Influence of colored sands on canopy temperature and turf quality when applied to bermudagrass putting greens in winter
- Trials to identify experimental lines of bermudagrass, seashore paspalum and zoysiagrass suitable for use on Florida golf courses
- Enhancing Florida golf courses to conserve beneficial insects and natural resources

## HOW

**Visit [Rounds4Research.com](https://Rounds4Research.com) to donate today!**

**Donations can be made online or by downloading and mailing in a donation form to the EIFG.**

**The 2017 Rounds 4 Research auction will take place May 1st – 7th. Available rounds may be viewed by visiting [Rounds4Research.com](https://Rounds4Research.com).**

**How can you help promote Rounds 4 Research Auction?**

- Use #R4R17 hashtag in your social media post leading up to and during the auction.
