From the Director

As we step into a new season, the Florida Chapter of CMAA continues to grow, connect, and provide valuable opportunities for professional development. This month's newsletter is filled with exciting updates, member achievements, and upcoming events designed to elevate your career and enhance our industry.

Professional development remains a priority, with keynote speakers and leadership sessions designed to inspire and educate. Kicking off our first regional "road show" of the season: Chris Clews, known for his expertise in merging 80s pop culture with leadership principles and Robb Holman, a global leadership expert, will introduce his "Inside Out Leadership" philosophy, focusing on personal growth and authenticity in leadership. Additionally, James Cronk will tackle one of the biggest challenges in club management—staffing and engagement—with his session, "Keeping Your Sanity While Managing Humanity" coming May 19-22.

For those with a passion for wine, FLCMAA's partnership with ClubProcure brings an exciting wine education session to the May educational series. Featuring Jackson Family Wines, the session will explore the differences between Pinot Noir and Cabernet Sauvignon, offering attendees a deeper understanding of how terroir influences these bold and elegant varietals.

Looking ahead, the 2025 Summer Conference at Ocean Reef Club promises to be a must-attend event. Set for June 22-25 in Key Largo, this conference will feature engaging speakers and member-led panels mixed in with all of the unique experiences that Ocean Reef has to offer.

Internship and career development are also a focus this month, with the CMAA Verified Internship Program helping clubs attract and develop top talent. By offering structured, high-quality experiences, clubs not only invest in the next generation of club managers but also build a stronger, more knowledgeable workforce.

With so much to celebrate and look forward to, March is shaping up to be an exciting month for FLCMAA. Whether you're attending a regional education session, connecting with fellow members online, or gearing up for the 2025 Summer Conference, there are countless ways to get involved and make the most of the opportunities ahead.

For more information on upcoming events and initiatives, visit www.flcmaa.org. Here's to a month of growth, learning, and meaningful connections!

James Cronk "Keeping Your Sanity While Managing Humanity"

"People! I can't find 'em, or keep 'em, or get them to do what I want with any kind of passion!", said every club manager everywhere. Do you suspect your staff aren't as Powered ON as their cell phones? Do you lose sleep wondering how you can make the GEN X, Y, and Z's do their A, B, C's? If so, then this session is for you.

Personal attention and care are no longer just for the customer. What employees used to want is not valued anymore, and what motivates millennials to make margaritas can be as difficult as bringing back baby boomers to be marshals. Until we can program drones to rake bunkers or teach tennis, we must continue to find new ways to engage and Power ON staff of any age. In this session, delegates will learn new ways to find, keep, and reward employees, and as a result, KEEP THEIR SANITY in 2025 and beyond.

James Cronk is a golf industry leader with over 30 years of experience, having presented at major golf industry events worldwide. A former golf professional and club manager, he has earned accolades for exceptional leadership and customer service. In 2022, he co-founded Golf Industry Guru, an online training platform providing over 200 hours of industry-specific content to help golf course professionals enhance their skills. In 2024, he introduced The Toolbox, a groundbreaking golf course safety platform in North America.

NATIONAL NEWS

CMAA Verified Internship Program Process

GET VERIFIED AND FIND YOUR NEXT SUPERSTAR!

The journey from student or enthusiast to seasoned professional involves key steps to prepare for a successful career—sometimes even in fields they hadn't previously considered.

That's where internship programs come in. These programs are more than just learning opportunities for students—they're a game-changer for our industry, helping to build a stronger talent pipeline for careers in club management. By investing in interns, you're not just mentoring the next generation; you're also gaining fresh perspectives and potential future leaders for your team.

One of the best ways to maximize your internship program is through the CMAA Verified Internship Program. This initiative ensures that your program meets industry best practices, providing students with a structured, high-quality experience while giving your club greater visibility among aspiring professionals.
