

ASSISTANT DIRECTOR OF LANDSCAPE OPERATIONS OPPORTUNITY AT THE CLUB AT QUAIL RIDGE

Be a part of something amazing, as you help to shape the future of our Members experiences at The Club at Quail Ridge. As an established and exclusive country club community in the heart of Palm Beach County, we are seeking a true leader to join our family, we **have an immediate opening for an experienced Assistant Director of Landscape Operations**.

Quail Ridge is a premier large-scale private gated community located in Boynton Beach, FL, a community of 946 unit owners and maintains 600 acres of beautifully landscaped and maintained areas. These areas include member's residences, community entrances, our Business Center, Country Club, Tennis facility, Fitness facility and more. Quail Ridge is a member of the National Audubon Society, one of the oldest organizations in the world that uses science, education and grassroots advocacy to advance its conservation mission. It is the beautiful landscaping and the safety of Quail Ridge that attracts the residents to the community. Our motto is **"Everything Matters"** which reflects the level of service we deliver to our residents.

The position will be responsible for the supervision and oversight of multiple staff members and teams performing various landscape maintenance services for the Property Owners Association. A great eye for detail and a proactive, cost effective approach to providing quality services to the members is expected. Regular, friendly and clear communication with the members/residents is required. If you have exemplary member service skills, strong leadership abilities, and the desire to be part of a dynamic team environment, then we would like to talk to you.

Assistant Director of Landscape Operations is responsible for maintaining the Quail Ridge POA landscape and grounds to reflect the ideals and intent of the Quail Ridge members and management. Supports Director of Landscape Operations in all daily and management functions. This position manages staff and horticulturist program, budget, programs, equipment and facilities and oversees community landscape and horticultural function.

- Assist in plant inventory, tagging and care of holding yard.
- Review and monitors all existing plantings within the community including specifications and design.
- Plan and follow a fiscal budget for operations, personnel, capital and special projects expenditures.
- Plan, design, and carry out landscape plantings and landscape projects coordinated with the POA landscape committee. This includes purchasing materials, coordinating and scheduling with consultants and contractors and reviewing bids for presentation to Director of Landscape Operations, Landscape Committee and GM.
- Regular evaluations of arboriculture needs as to general health of trees and safety of the residents are to be made.
- Plan, consult and assist with other Director regarding capital needs.
- Order plant materials and supplies including fertilizer and pesticides to maintain the integrity of the property's landscape. Develop and coordinate contractor time tables for installations.
- Meet with department staff at regular meetings to exchange information and coordinate activities to maximize capital.
- Write reports, planning documents, and newsletter articles as needed.
- Coordinate horticulture responsibilities for special events.
- Complete accessibility for homeowners requests, concerns and complaints.
- Responsible for monthly work orders and billings to homeowners for plantings, tree work and irrigation projects within defined areas.
- Works with the Human Resources Department concerning all employees discipline, evaluations, onboarding, interviewing, hiring, terminations, safety training and other related personnel concerns and procedures.
- Prepare, review, and submit time cards/time records to payroll/HR for department.
- Training of new and existing employees: job function, equipment operation, safety requirements, safety training, guest service standards and departmental information.
- Schedules and conducts safety and staff meetings.
- Perform any other duties/tasks that is required, assigned, and/or directed by management.

Requirements and experience

- Minimum five years of experience in Horticulture or Landscape Management, Bachelor Degree in Plant Science or Landscape is preferred
- Previous Landscape experience required.
